

# Press Release

## Looking to build a physically secure and green Data Centre in Canberra?

Rittal Australia has the answer and launches into the government and defence sector with Australia's first IT Infrastructure office solely dedicated to the Canberra market.

CeBIT delegates will see a highlights package of the product showcase set for the new showroom and office.

The Canberra Data Centre showcase presents the latest in IT infrastructure with a commitment to building one of Canberra's most physically secure and energy efficient Data Centres.

Showcase highlights include:

Fully functioning LIVE data centre

Five perfectly coordinated data centre infrastructure modules

Racks | Power | Cooling | Physical Security | Monitoring & Remote Management

### FIRST TO AUSTRALIA

**Modular IT Security Room** - Type "LSR18.6 E", highest level of physical Data Centre Security. This system-tested room-in-room construction is built to withstand fires, floods, unauthorised access, vandalism and explosions. Special fire rating for IT Systems according to EN1047-2: maximum internal temperature of 70 °C over 60 minutes of 1000 °C external fire penetration. Standard building fire rating 180 minutes. Deploy modular and scalable security room technology to meet immediate demands while enabling seamless upgrades in the future. Showcasing an internal and external alarm scenario!

**LCP In-Line with IT Chiller** - Efficient external chiller setup, redundant pumps and EC fans. Chiller completely integrated with internal LCP (Liquid Cooling Package) unit. Latest water based in-row high density cooling technology, up to 30 kW per rack.

**Cutting-Edge Modular UPS** - Energy efficient 95% across all loads. Flexible UPS power supply for maximum availability and protection for your data centre. Modular pay-as-you-grow concept.

**Gas Fire Extinguishing & Early Active Smoke Detection** - based on environmentally friendly Novec1230™ gas. Showcase of DET-AC XL product family.

**Intelligent Power Rails** - Dual A/B in-feed, measurement of power consumption

**RiZone** - Interactive software providing a complete overview to remotely manage your Data Centre. PUE calculations, alarm monitoring and forwarding.

### YOU'RE INVITED!

Join us at the opening of the Canberra office at our inaugural launch event on Tuesday 28<sup>th</sup> June 2011.

Time: 2.30 - 7.00pm

Venue: Rittal Canberra

Unit 7 / 23 Brindabella Circuit , Brindabella Business Park , Canberra Airport

Invites are available at the Rittal stand at CeBIT - R15, R20.
