Rittal – The System.

Faster – better – worldwide.

Rittal – The System is the perfect synthesis of highest quality products, engineering tools and customer service in one complete system package. Rittal's service component completes our holistic solution.

Rittal safeguards the long-term productivity of your systems. An international presence alongside regional proximity, ultimate service quality and transparent costing ensures that whenever, wherever and however you need us, Rittal is at your service!

Faster

- Short distances and fast communication: Thanks to regional service centres and local partners
- Perfect interaction between service and engineering

Better

- Individual service solutions from a single partner
- High qualification standards of Rittal service technicians worldwide

Worldwide

- More than 250 service partners and over 1,000 service technicians

The Benefits to You:

- Preserve the value of your systems and equipment
- Reduced downtimes via fast and reliable service
- Long-term cost management
- Service from a single partner
- Expert knowledge of your equipment and systems
